CORE COMPETENCIES

UX Strategy & Product Thinking	User Research & Usability Testing	Design Systems & Component Libraries
Information Architecture	Wireframing & High-Fidelity Prototyping	AI-Driven Dashboard UI Design
Cross-functional Collaboration	Agile / Scrum Methodologies	Front-End Development (ReactJS)

WORK EXPERIENCE

Senior UI/UX Engineer

Save Energy System Inc

Sep 2025 - Present

Remote / Sri Lanka

- ▶ Owning the full design lifecycle from research to developer handoff.Led end-to-end UI/UX strategy for enterprise IoT web & mobile platforms,
- ▶ Modernising the design system and improving key task completion flows - resulting in a measurably cleaner user journey across device types.Revamped the IoT web portal UI,
- ▶ Creating clear data-visualisation hierarchies that reduced operator decision time.Designed AI-driven dashboard UI layouts for real-time device monitoring,
- ▶ Cutting design-to-dev handoff time significantly.Built a reusable component library in Figma aligned with ReactJS/NextJS architecture,
- ▶ Mentored UI/UX interns and ran structured design critiques, raising team output quality.

Senior UI/UX Engineer

Nvision (Pvt) Ltd

Nov 2023 - Sep 2025

Sri Lanka

- ▶ Revamping the interface to support POS terminals, tablets, desktops, and mobile in a single responsive system.Designed UI/UX for SalesPlay POS across Web, Android & iOS
- ▶ Reducing operator errors through clearer information architecture.Improved usability of transaction heavy ERP dashboards (sales management, inventory, reporting),
- ▶ Bridging the gap between Figma prototypes and production implementation.Contributed front-end code (HTML, CSS, JS, ReactJS, PHP) alongside design,
- ▶ Led stakeholder workshops to translate complex business requirements into design solutions and user flows.
- ▶ Guided junior designers with structured feedback cycles and encouraged continuous skills development.

Senior UX Engineer

Texca (Pvt) Ltd

Oct 2022 - Oct 2023
Sri Lanka

- ▶ Owned the full UX lifecycle - user research, journey mapping, wireframing, prototyping, and usability testing for multiple product lines.
- ▶ Conducted user interviews and moderated usability tests, translating findings into prioritised design improvements.
- ▶ Produced high-fidelity UI prototypes in Figma aligned with product goals and technical constraints.
- ▶ Collaborated with product managers and developers to define and refine UX strategy across sprints.

UX Engineer

Upenterprise (Pvt) Ltd

Apr 2022 - Oct 2022
Sri Lanka

- ▶ Designed responsive, accessible UI components for web platforms using Figma and front-end code.
- ▶ Iterated on UX improvements through user feedback loops, improving task completion rates across key workflows.
- ▶ Worked cross-functionally with product, engineering, and QA teams to deliver user-centred solutions on schedule.

Associate UI/UX Designer

9xcoders (Pvt) Ltd

Oct 2019 - Apr 2021
Sri Lanka

- ▶ Designed user-friendly web and mobile application interfaces, ensuring visual consistency and accessibility across projects.
- ▶ Built and maintained shared design assets, improving team consistency and speed of delivery.

Intern Front-End Developer

Ricco Hub Solutions (Pvt) Ltd

Oct 2017 - Jul 2018
Sri Lanka

- ▶ Built responsive web interfaces using HTML and CSS; implemented custom WordPress themes and plugins.
- ▶ Collaborated with designers and backend developers in a cross-functional agile team.

KEY PROJECTS

Save Energy Systems - IoT Web Portal

ReactJS | NextJS | Figma

- ▶ Revamped the IoT portal UI with a modernised design system and improved information architecture, streamlining device management workflows for enterprise operators.
- ▶ Designed AI-driven dashboard interfaces for real-time device monitoring with clear data-visualisation hierarchies.
- ▶ Delivered high-fidelity Figma prototypes and interaction flows validated through internal usability testing.

Save Energy Systems - Mobile App (iOS & Android)

Figma | iOS | Android

- ▶ Designed the full mobile UI for real-time device monitoring, work order management, and data visualisation.
- ▶ Redesigned navigation and task flows, improving information hierarchy and reducing steps to complete key actions.

- ▶ Optimised for mobile usability across iOS and Android screen sizes and interaction patterns.

SalesPlay POS System & Back Office ERP

ReactJS | PHP · HTML/CSS | Figma

- ▶ Contributed to design and front-end development of SalesPlay POS - a multi-platform system covering Web, Android, and iOS POS devices, tablets, desktops, and mobile.
- ▶ Designed Back Office ERP dashboards covering sales management, inventory tracking, reporting, and admin workflows.
- ▶ Built front-end components in ReactJS, PHP, HTML, CSS, and JavaScript, working alongside the engineering team for accurate implementation.
